THE BULLISH FARMER
FEBRUARY 1
THE BULLISH FARMER is a feature-length
documentary on sustainable agriculture. It journeys into the life of a Wall Street investment banker-turned farmer as he struggles to build and run a farm that feeds his family and his community.

It is our hope that THE BULLISH FARMER
will inspire families to reconsider their eating habits and to better understand how their food choices affect their health. We further hope that the film will contribute to society’s current shift toward good clean food and that it will spark dialogue about how to change prevailing farm policies.

Diving Deep: The Life and Times of
Mike deGruy, celebrates Mike and all he accomplished in his amazing career, and also highlights what he cared most about at the time of his death: we are destroying the ocean before we even know what’s there. If Mike deGruy were alive today he would be spending all his energy to fight on behalf of the ocean, for continued exploration, particularly of the deepsea, research, understanding and ultimately encouraging a reciprocal relationship with it before it is too late.

NOCHE DE PENA
FEBRUARY 1
A paña is a casual and participatory social event centered around live music that celebrates the community through music, poetry, prose, and culture. Pañas have a rich and varied history and can be quite different from one country to another. In Spain, pañas often celebrate and promote Flamenco culture, while in Peru they tend to focus on what is known as Música Criolla—an array of sub-genres created from the fusion of Spanish, Andean and African cultures, such as huayno, festejo, and marinera.

Join us for a celebration for the people, by the people. Featuring artists Paola Ines, Frank Ayala, Victor Mestas, with members of Chicos Maños – Leo Corona and Jose Cabrera and more.

Joining these two masters on the program will be a new work by our own Lance Hardin and Amy Earnest. Collaborating with composer Michael Schule, the piece incorporates artificial intelligence.
